Ottawa: Victoria Museum.

AUDIT OFFICE, OTTAWA, December 13, 1909.

SIR,—Let me acknowledge receipt of your application No. 762 for $11,700 in favour of George Goodwin, being estimate No. 32 to December 2, 1909, on his $950,000 contract for erection of the Victoria Museum.

The date fixed for completion of the work was December 28, 1908; see section 5 of the contract of December 28, 1904. The total of the estimate in hand is $826,234.

Section 21 of the contract form reads: 'Should the contractor not complete the work herein contracted for, at the period agreed upon as above-mentioned, he shall be liable for and cause to be paid to His Majesty all salaries or wages which shall become due to person or persons superintending the work on behalf of His said Majesty from the above-named period for completion, until the same shall actually be completed and received, unless reason for such delay, satisfactory to the Chief Architect and approved by the Minister shall be given by the said contractor.'

Please let this office know whether the Department thinks it advisable to charge the contractor for delay, as provided in section 21.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

PUBLIC WORKS DEPT., OTTAWA, January 5, 1910.

SIR,—Replying to your favour of the 13th ultimo, respecting application No. 762 for a payment in favour of the contractor of the Victoria Memorial Museum, I beg to say that the contractor was delayed at the commencement of this work owing to difficulty in arriving at an agreement with the owners of the quarry from which the stone specified was to be taken. There have also been some slight changes made in the design of the tower of the building, so that the department did not deem itself, under the circumstances as known to it, warranted in enforcing the conditions of section 21 of the contract.

I am, sir, your obedient servant,

The Auditor General. J. B. HUNTER, *D.M.*

Ottawa: Elevator in Seybold Block.

AUDIT OFFICE, OTTAWA, March 31, 1910.

SIR,—I beg to acknowledge receipt of your application No. 991, for $2,500, in favour of the Otis-Fensom Elevator Co., being the cost of installation of one passenger elevator in the Seybold Block, Ottawa.

The Seybold Block is a building rented by the government for use as the local custom house.

We would like to have a copy of the lease, to see how the cost of this permanent improvement is to be distributed between the landlord and tenant.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

AUDIT OFFICE, OTTAWA, April 25, 1910.

SIR,—I beg to acknowledge receipt of a letter of date April 16, 1910, enclosing a copy of the lease of the Seybold Block.

Under the terms of the lease the lessor agrees 'to provide, in the said building, an elevator fully equipped and ready for use by the lessee,' and the lessee is 'to do the ordinary repairs (reasonable wear and tear and damage by fire, lightning and tempest, only excepted).'

The installation of a passenger elevator might be considered as provided for in the clause first quoted, and under such circumstances would be a charge against the lessor.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

PUBLIC WORKS DEPT., OTTAWA, April 28, 1910.

SIR,—Replying to your favour of the 25th instant referring to terms of lease of the Seybold Block, relating to elevator I may say that, on the report of the Chief Architect, that the elevator which was in the building when leased, had got into a condition incapable of repair and endangered the lives of those making use of it, the department called upon the owner of the building to install a new machine but could get no reply from him. As an elevator in the building was absolutely essential, the department decided to make the installation and pay for same in the meantime, until action was taken by the owner.

I am, sir, your obedient servant,

The Auditor General. J. B. HUNTER, *D.M.*

AUDIT OFFICE, OTTAWA, May 3, 1910.

SIR,—I beg to acknowledge receipt of your letter of April 28, 1910, respecting the installation of an elevator in the Seybold Block, stating that the department had called upon the owner of the building to install a new machine, but could get no reply, and that, as the elevator was essential, the department decided to make the installation and pay for the same, until action was taken by the owner.

As the elevator was installed under agreement with the department, the responsibility for payment to the contractor rests with the government; and, with that view, assent has been given to issuance of the cheque to the Otis-Fensom Elevator Co.

Under the terms of the lease, the owner agrees to supply an elevator fully equipped and ready for use. Please retain from the owner of the Seybold Block any sums of money which may become due to him for rental of the said building, until the department has been fully reimbursed for all expenditures incurred on account of the installation of this elevator.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

Yukon Buildings: Certificate.

AUDIT OFFICE, OTTAWA, December 29, 1909.

SIR,—Let me acknowledge receipt of vouchers for November expenditure by Messrs. Bertrand & Lithgow, for maintenance of Dominion buildings in Yukon Territory.

The certificate signed by Mr. Bertrand, the Superintendent of Works and Buildings, is: 'Certified correct; prices fair and just.'

Please arrange for certificates of 'Work performed' and 'Materials received,' to be signed by officers who have personal knowledge of these facts.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

PUBLIC WORKS DEPT., OTTAWA, January 10, 1910.

SIR,—Having reference to the certificate appearing on accounts passed by the Superintendent of Works and Buildings for this department in the Yukon, personally, I do not see that the words 'Certified correct' could carry any other meaning than that the work charged for had been performed, or that the materials which had been ordered had been received, whichever the case might be.

However, I quite agree that on every account there should be a certificate from some officer who has a personal knowledge of the account, and instructions will be given Superintendent Bertrand that in the case of all accounts of which he has no personal knowledge these must bear the certificat of the foreman or sub-agent who has such personal knowledge, as well as his own certificate.

I am, sir, your obedient servant.

The Auditor General. J. B. HUNTER, *D.M.*

AUDIT OFFICE, OTTAWA, February 21, 1910.

SIR,—Let me acknowledge receipt of your letter of January 10, concerning certificates on vouchers from the Yukon Territory.

We note with pleasure your arrangement that the certificates of chapter 29, section 33, of the Revised Statutes will always be made by officers with personal knowledge of the facts.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

Richibucto, N.B.: 'Municipal' Wharf, 1909-10.

AUDIT OFFICE, OTTAWA, January 31, 1910.

SIR,—Let me call your attention to the vouchers for expenditure in 1909-10 on 'Richibucto, Public Wharf,' amounting to $3,188.56.

The work was in charge of Mr. Thomas O. Murray, who certified the accounts.

In his evidence recently given before the Public Accounts Committee concerning the expenditure of 1908-9, Mr. Murray admitted that the facts were not as represented in the vouchers. It will therefore be impossible to accept his certificate for 1909-10.

Please return the inclosed accounts to the resident engineer, Mr. Geoffrey Stead; and ask him to investigate their reliability, and obtain certificates from the assistant foreman.

The vouchers made out by Mr. Murray for other persons should be replaced by originals from the creditors themselves.

Mr. DeRoche's timber account of $585 is large enough to require a specification.

It would be well to state which wharf has been improved—the 'Municipal Wharf' or the 'Sawdust Wharf' recently purchased.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

PUBLIC WORKS DEPT., OTTAWA, March 11, 1910.

SIR,—With reference to your letter of the 31st January last, respecting vouchers for expenditure in 1909-10 at Richibucto public wharf, amounting to $3,188.56, I am directed to inclose herewith a copy of report received from our resident engineer, Mr. Geoffrey Stead, containing the information desired by you on the subject, also the vouchers in question duly amended.

I am, sir, your obedient servant,

The Auditor General. NAPOLEON TESSIER, *Secretary.*

CHATHAM, N.B., February 18, 1910.

SIR,—I have received your letter No. 7175 of February 8, inclosing vouchers for the expenditure of 1909-10 on the Richibucto public wharf and the letter from the Auditor General stating that the certificate of Thos. O. Murray, the late foreman, cannot be accepted.

As directed, the accounts have been investigated by my assistant, Mr. J. P. Wood, and compared with the original notes in the time book kept by the assistant

foreman, who, after examination of the vouchers, has signed them as correct.

Originals in the handwriting of the creditors are inclosed to replace the vouchers for R. P. Phinney and R. McDonald. In the case of the other similar accounts, the creditors could not write or it would take time to get accounts in their own writing as they had moved away or were living some miles from Richibucto. The accounts were, however, all compared by my assistant with the original notes of the work done, &c., in the assistant foreman's book.

Sylvestre DeRoche, the largest creditor, can only write his name, and has certified the account made out in his name as correct.

The lumber surveyor's original bills are included for 53,592 ft. B.M. of hemlock brought out by different parties to Syl. DeRoche, who had the contract to supply all the timber at $10 per M. DeRoche delivered the lumber on the work over the Kent Northern Railway. The square timber for the caps DeRoche bought from R. O'Leary, through T. O. Murray, the foreman. O'Leary's receipt for payment for this lumber, amounting to 4,908 ft. B.M.—the balance of the 58,500 ft. B.M. charged for by DeRoche—is inclosed. It will be noticed that O'Leary charged $15 per M. for the lumber but that it is entered in DeRoche's bill against the department at $10 per M., the same rate as the rest.

The specification of the lumber required for the wharf and supplied by DeRoche is as described on DeRoche's voucher—'round hemlock logs and timber at least 10 inches at small end and 16 to 20 feet long.' In addition the square timber was to be 12 inches by 12 inches.

The repairs were made on what was formerly known as the Municipal Wharf.

I am, sir, your obedient servant,

The Chief Engineer, Ottawa. GEOFFREY STEAD, *R. E.*

St. John Harbour: Boulders in Berths 5 and 6.

AUDIT OFFICE, OTTAWA, March 16, 1910.

SIR,—I beg to acknowledge receipt of your application No. 916, for $1,429, in favour of the city of St. John, N.B., being for removal of boulders from berths 5 and 6, December, 1908, to February, 1909.

The account consists of the hire of a hoisting scow and crew and of a diver and helper, and is endorsed by the city engineer of St. John, Jas. Howden and E. D. Lafleur.

In a memorandum attached, Mr. Howden states that 'there appears to be no record of the yards dredged, or of the number of boulders removed.' Would the Resident Engineer, Mr. J. K. Scammell, have any information in regard to this work? If so, please obtain a statement from him.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

PUBLIC WORKS DEPT., OTTAWA, May 6, 1910.

SIR,—Regarding application No. 916 for $1,426 in favour of the city of St. John, N.B., and your query in your letter of March 16 last, asking if Resident Engineer, Mr. J. K. Scammell, would have any information in regard to this work, I beg to inform you that the matter was discussed with Mr. Scammell and he states that he has no personal knowledge of the quantity of material dredged or of the number of boulders removed.

In this connection I attach copy of a letter from the city engineer for St. John, Mr. W. Murdock, transmitted by the comptroller of the city, giving information as to the number of boulders and timbers removed.

The decision to pay for this work may be said to be a continuation of the policy of the department to take over gradually from the city of St. John certain harbour works and prosecute them in the public interest. An instance of this is the taking over of the Sand Point slip wharfage and completing same, also the taking over of dredging at that slip and other locations.

As to the account under consideration the department can only accept the city statement as to the cost of the work performed, as none of our officers are in a position to certify as to the yardage removed. The charges per day, however, for the plant while it was at work, are certified by the superintendent of dredging as fair and just.

I am, sir, your obedient servant,

The Auditor General. A. ST. LAURENT, *Asst. D.M.*

Richelieu River: Hire of Dredge.

AUDIT OFFICE, OTTAWA, November 5, 1909.

SIR,—Let me call your attention to application No. 654 for $18,839.24, in favour of L. Cohen & Son, for hire of dredges *Lanark* and *Maberly,* June-September, 1909, for work in River Richelieu, Que.

The authority offered in support of the application, is the following letter, of date May 23, 1909, from the chief engineer:—'I write to confirm the following telegram sent you yesterday: "Department willing to pay Messrs. Cohen & Son, nine dollars, fifty cents, per working hour for each of their two dredges with outfit for Richelieu river work, and employ their own crews. Please communicate with them immediately, and set plant to work. Letter follows."'

Was this arrangement the result of public competition?

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

PUBLIC WORKS DEPT., OTTAWA, November 15, 1909.

SIR,—Replying to your favour of the 12th instant, in reference to application No. 654 for payment to L. Cohen & Son for hire of dredges *Lanark* and *Maberly,* and inquiring whether the arrangement made with the firm was the result of public competition, I beg to say that it was not, and in explanation, I may add that it was found, when proceeding with the improvement of the Richelieu river at St. Johns, Que., that additional plant was necessary and after consideration the conclusion arrived at was that it would be cheaper to rent suitable dredges rather than construct them. The chief engineer therefore made inquiry and found that the two dredges above-mentioned were the only ones, so far as he could ascertain, whose dimensions would allow them to be towed through the Chambly canal, which is only 23 feet wide in the locks, to St. Johns. In view of the above and also the fact that these dredges were otherwise splendidly adapted for this work, this was not a case where public competition could be utilized.

I am, sir, your obedient servant,

The Auditor General. J. B. HUNTER, *D.M.*

AUDIT OFFICE, OTTAWA, November 22, 1909.

SIR,—Let me acknowledge receipt of your letter of date November 15, 1909, in further discussion of the employment of dredges *Lanark* and *Maberly* at St. Johns, Que., during season of 1909, and stating that these two dredges were the only ones, so far as the chief engineer could ascertain, whose dimensions would allow them to be towed through the Chambly canal to St. Johns; and that in view of this fact, and also since the dredges were otherwise splendidly adapted for the work, this was not a case where public competition could be utilized.

Please furnish this office with a copy of the order in council authorizing this work without public competition.

A statement showing the number of cubic yards removed by each dredge each day might also be supplied.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

AUDIT OFFICE, OTTAWA, November 29, 1909.

SIR,—Replying to your favour of the 22nd instant, with further reference to the employment of dredges *Lanark* and *Maberly* at St. Johns, Que., during the season 1909, I beg to say that no order in council was obtained authorizing the employment of these dredges as it has never been the custom to do so in connection with works which are being proceeded with by the department's own staff by day's labour.

I have requested the chief engineer to furnish you, as requested, with the number of cubic yards removed by each dredge each day.

I am, sir, your obedient servant,

The Auditor General. J. B. HUNTER, *D.M.*

St. Alphonse de Bagotville: Extension of Wharf.

AUDIT OFFICE, OTTAWA, December 10, 1909.

SIR,—Let me acknowledge receipt of your application No. 757 for $8,725.86 in favour of Heney & Smith, being the final estimate on their $38,358 contract for extension of wharf at St. Alphonse de Bagotville.

Dates of Contract and Estimate.

Signing of contract—November 27, 1907.
Contract—Date for completion, November 27, 1908.
Estimate No. 1 for $11,734.02—January 22, 1909.
" " 2 for 8,260.12—April 1, 1909.
" " 3 for 8,095.46—July 1, 1909.
" " 4 for 5,107.20—September 15, 1909.
" " 5 for 4,278.70—November 5, 1909.
Inspector, at $2.50 for week-days, from September 7, 1908.
Inspector, (off October 1—15, 1909), worked up to November 6, 1909.

Section 21 of Contract Form.

Section 21 of the contract reads: 'Should the contractors not complete the work herein contracted for at the period agreed upon as above-mentioned, they shall be

liable for and shall cause to be paid to His Majesty all salaries or wages which shall become due to person or persons superintending the work on behalf of His Majesty from the above-named period for completion, until the same shall actually be completed and received; unless reason for such delay satisfactory to the Chief Engineer and approved by the Minister shall be given by the said contractors.'

Please ascertain the reasons for non-completion at the contract-date. If these reasons are not satisfactory to the chief engineer and minister, it would be well to enforce the contract penalty, by charging Messrs. Heney & Smith with the inspector's salary for the overdue time.

Chain and Anchor.

In the bill of extras are the following items:—' Chain, 3,251 lbs. at 3c.; anchor, 1,218 lbs. at 3c.' No description is given of the manner in which these enter into the construction of the wharf. We would like to have this information before charging the items to the vote for ' St. Alphonse de Bagotville.'

Certificate from Inspector.

As a general principle, would it not be advantageous to have inspectors certify that all the provisions of the specification have been carried out, or describe any variations therefrom?

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

CHICOUTIMI, December 28, 1909.

SIR,—I have your letter No. 6293, dated 18th instant, enclosing file No. 342,867, in which the Auditor General refers to an application for $8,725.86, in favour of Heney & Smith, being final estimate on their contract for extension of wharf at St. Alphonse de Bagotville, and asks that reasons for non-completion at contract date, and information regarding chain and anchor mentioned in bill of extras, be given. To let you have a full report on this matter, stating whether it would be advantageous to have inspectors certify that all provisions of the specification have been carried out, or describe any variations therefrom, I have the honour to report as follows:—

The contract signed in 1907, was to be completed November 27, 1908, instead of that the work was commenced in January, 1909, and completed November, 1909, the reasons why the work was commenced only in 1909, was due to the fact that it was difficult to purchase timber, if you remember petitions were made by the citizens of St. Alphonse de Bagotville for to allow contractors to use round timber of 12 instead of 14 inches, which permission was granted, with the condition that a cent will be deducted per inch, which deduction was made.

As regards to the employment of the inspector, I don't think that his services were required more than if the work was commenced immediately after the signature of the contract, for the inspector was only paid during the working on the wharf.

About chain and anchor, I have furnished to the contractors some cement, of which we had a balance on Chicoutimi wharf and I was in need of chains and anchors for the establishment of a pontoon, I thought proper to have the anchor and chain charged, perhaps it would have been better to have a separate account, but the reason of doing so was because we had a certain amount due from the contractors, and the deduction was made.

I am, sir, your obedient servant,

The Chief Engineer, Dept. of Public Works. J. C. TACHE, *D.E.*

CHIEF ENGINEER'S OFFICE, OTTAWA, January 4, 1910.

SIR,—In File No. 342,867, herewith enclosed, the Auditor General refers to the application for $8,725.86, in favour of Messrs. Heney & Smith, being final estimate on their contract for the extension of the wharf at St. Alphonse de Bagotville, and asks for reasons for non-completion of the work at the contract date, and also for information regarding chain and anchor mentioned in the bill of extras. This was referred to Mr. J. C. Taché, district engineer, whose report giving information required by the Deputy Minister I have the honour to transmit herewith.

The reasons given by Mr. Taché in his report are satisfactory to me, and I therefore think the contract penalty of charging the contractors with the inspector's salary should not in this case be enforced.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. EUGENE D. LAFLEUR, *C.E.*

AUDIT OFFICE, OTTAWA, June 14, 1910.

SIR,—Let me acknowledge receipt of your application No. 113 for $1,962 in favour of Heney & Smith, for extra work in connection with construction of wharf at St. Alphonse de Bagotville, as follows:—

Western part, 3 ft. extra sinkage, 10,764 ft. at 10 cents..	$1,076 40
Eastern part, 3 ft. extra sinkage, 8,856 ft. at 10 cents	885 60
	$1,962 00

Specification, Item 16—Sinking of Cribs.

Item 16 of the specification reads: 'The soundings shown on the plan have been taken to show the general height of the work to be built, but before starting to build his crib, the contractor must take a fresh and detailed set of soundings all over the site, to enable him to construct the bottom the cribs to conform to any irregularities, unevenness and slope that may be found to exist, also to allow for probable extra settlement over any part or portion which may be found to be softer than the remainder; as it will be insisted upon that the top of the cribs, when in place and fully ballasted, shall be even and level throughout, and that the said cribs shall be well in line.

We find nothing in the present correspondence to show that the extra work now claimed is other than what might be required to make 'the top of the cribs even and level throughout,' as required by section 16 of the specification.

Did the contractor 'take a fresh and detailed set of soundings all over the site'?

Specification, Item 18—Procedure.

Item 18 of the specification reads: 'When sunk, the cribs will be at least two feet above level of low water, and will be left in that position until orders in writing are given by the engineer in charge to begin the building of the superstructure, which on no account will be allowed to go on before he (the engineer in charge) has satisfied himself that such crib has gone down to its full extent.'

Please send a copy of this order by the engineer. What was the sinkage before the date of the order? Is that sinkage included in the three feet now recommended by the engineer?

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

CHIEF ENGINEER'S OFFICE, OTTAWA, July 15, 1910.

SIR,—With reference to the Auditor General's letter, June 14, last, relative to the payment of the contractors, Messrs. Heney & Smith, of an additional sum of $1,962, over and above their contract price, for work performed at St. Alphonse de Bagotville, I beg to state that my interpretation of the contract is that the contractors had to build the work in accordance with the plans and specifications prepared by the department. The plan shows distinctly two feet of sinkage, which was the amount which was expected to take place. Therefore, if the contractor had to add three tiers of timber in order to, as stated in clause 16 of the specification, 'allow for probable extra settlement over any part or portion which may be found to be softer than the remainder; as it will be insisted upon that the tops of the cribs, when in place, and fully ballasted, shall be even and level throughout,' the contractor is fully entitled to payment for his additional sinkage, as the three additional tiers were necessary to bring the tops of the cribs to the required level.

Mr. Taché states distinctly in his report that the contractors did take a fresh and detailed set of soundings all over the site of the proposed work.

I may say that no written order was issued by the engineer in charge, Mr. J. C. Taché, to the contractors to proceed with the building of the superstructure, verbal orders being given over the telephone.

With the above explanation, I hope that the Auditor General will see his way clear to pay the contractors the sum of $1,962, above mentioned, to which amount they are fairly and reasonably entitled.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. EUGENE D. LAFLEUR, *C.E.*

Toronto Harbour: Island Breakwater.

CHIEF ENGINEER'S OFFICE, OTTAWA, February 1, 1910.

SIR,—I have the honour to transmit herewith a report by Mr. J. G. Sing, district engineer, respecting an account amounting to $3,340.27, rendered by Messrs. Miller & Cummings, for driving piles in connecion with their contract for the construction of the Toronto Island breakwater.

Mr. Sing states that the work was performed and the prices are fair and just. He adds that the work was not ordered by letter but that it was done to repair damage sustained by the work during the winter and spring of 1908-9.

It therefore remains with the department to decide whether or not the account as rendered, should be paid.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. EUGENE D. LAFLEUR, *C.E.*

TORONTO, February 18, 1910

SIR,—I respectfully acknowledge the receipt of your letter No. 7094, inclosing my report of the 14th ult., with my covering letter, respecting Messrs. Miller and Cummings' account amounting to $3,340.27, for driving piles in connection with their contract for the construction of the Toronto Island breakwater, and you ask me to note the attached memo. of the Asst. Deputy Minister and let you have an explanation why in one case $5 per lineal foot is charged for driving extra sheet piling, while for similar work, not performed, only $2 per lineal foot is credited, and you also ask if that part of the work which was damaged, was accepted by the

department when the damage occurred, also, whether or not, the damage occurred through negligence on the part of the contractors or if they took every reasonable precaution to safeguard the structure, and you ask for a copy of my report to be placed on file in my record.

In obedience to your instructions, I have noted the memo. of the Asst. Deputy Minister, and in reply would say, that the pile driving for which $5 per lin. ft. is charged is that in the main line of the breakwater extension, and occupies a most exposed position, and, owing to this fact, work could only be carried on at irregular intervals and with considerable risk to plant, &c. This rendered the progress of the work very slow. This piling, of course, had to be driven from a floating pile driver, and $5 per lin. foot is the price it is customary to pay for this class of work.

The work for which $2 per lineal foot is credited was the 245 feet at the rear of the main line of piling, connecting the groynes with the shore, which was considered unnecessary on account of the stone wall being built and the city filling in at the rear of the wall with sand. This work could have been performed by a land driver, without risk and with great rapidity, and $2 per lin. ft. is the price paid for this class of work.

I do not think the damage occurred through any negligence on the part of the contractors as they took every reasonable precaution to safeguard their work during the winter although it was performed in a manner which the department would not accept, but they made the closure to protect the island knowing that a portion of the work would have to be reconstructed to meet the requirements.

However, as you are aware, it was seriously damaged during the winter of 1908-9 with the result that some 448 feet had to be renewed.

I am, sir, your obedient servant,

The Chief Engineer, P.W.D. J. G. SING, *D.E.*

CHIEF ENGINEER'S OFFICE, OTTAWA, February 22, 1910.

SIR,—I return herewith your report of the 18th instant, respecting Messrs. Miller & Cummings' account for $3,340.27 for driving piles in connection with their contract for the construction of the Toronto Island breakwater together with your previous report of the 14th ultimo, and my report to the Deputy Minister of the 1st instant, and would call your attention to the underlined statement in the 2nd paragraph on page 2 of your report of the 18th instant, in which you state that you 'do not think that the damage occurred through any negligence on the part of the contractors as they took every reasonable precaution to safeguard their work during the winter, although it was performed in a manner which the department would not accept.' There is certainly a contradiction in this statement, and I would ask you to explain clearly and definitely what you mean.

J. G. SING, Esq., EUGENE D. LAFLEUR, *C.E.*
District Engineer, Dept. Public Works, Toronto.

TORONTO, February 24, 1910.

SIR,—I respectfully acknowledge the receipt of your letter No. 7484, dated 22nd instant, returning me report of the 18th instant, respecting Messrs. Miller & Cummings' account for $3,340.27 for driving piles in connection with their contract for the construction of the Toronto Island breakwater extension, and calling my attention to an underlined statement on page 2 of my report of the 18th instant, in which I have stated, that the contractors took every precaution to safeguard their work dur-

ing the winter, although it was performed in a manner which the department would not accept, and you ask me to explain clearly and definitely what I mean.

With reference to the above, I would say, what I intended to convey was that the contractors closed the work or made the connection with the old breakwater, but the piles were driven in a very irregular manner, and very much out of alignment, although they were driven to the proper depth and secured by a waling, but on account of being out of alignment certain portions would have had to be removed and re-driven.

I am, sir, your obedient servant,

The Chief Engineer, Dept. Public Works. J. G. SING, *D.E.*

Chief Engineer's Office, Ottawa, March 10, 1910.

Sir,—I enclose herewith a memorandum from the Asst. Deputy Minister, regarding your reports of the 18th and 24th ultimo and January 14, with accompanying correspondence regarding Messrs. Miller and Cummings' claim of $3,340.27, for driving piles in connection with their contract for the construction of the Toronto Island breakwater extension.

Mr. St. Laurent desires to know what portion, if any, of the said 448 lineal feet of piling charged extra, is included in the temporary connection made with the old breakwater, as mentioned in the second paragraph of your report dated 24th ultimo.

He calls attention to your statement that 'the piles were driven in a very irregular manner and very much out of alignment, although they were driven to the proper depth and secured by a waling, but on account of being out of alignment certain portions would have had to be removed and re-driven.'

He desires to know positively how much lineal feet of such piling, which would have had to be removed and re-driven, in any case, is included in the claim, and what part would not have had to be re-driven should no damage have occurred to these works, during the winter and spring of 1908-9. Kindly let me have a further report giving the desired information.

I am, sir, your obedient servant,

J. G. SING, Esq., EUGENE D. LAFLEUR, *C.E.*
District Engineer, Public Works Dept., Toronto.

Chief Engineer's Office, Ottawa, March 30, 1910.

Sir,—*Re* contract of Messrs. Miller & Cummings for Toronto Island breakwater. I am informed that upon your instructions, the line of piling driven by the contractors in the fall of 1908, has been incorporated in the completed work, and that upon your verbal orders to Messrs. Cummings & Robertson, I have no doubt that the work was considerably strengthened and I therefore approve of your action in the matter. I would, however, consider that the contractors are entitled to the full cost of the work thus performed, and would ask you to send me an account covering the expenditure under the head of additional work, this letter being your authority to do so.

I am, sir, your obedient servant,

J. G. Sing, Esq., EUGENE D. LAFLEUR, *C.E.*
District Engineer, Dept. Public Works, Toronto.

TORONTO, April 22, 1910.

SIR,—I respectfully acknowledge the receipt of your letter No. 8720, dated 10th ultimo, enclosing memo. from the Asst. Deputy Minister, regarding my reports of February 18 and 24, and January 14, with accompanying correspondence regarding Messrs. Miller & Cummings' claim of $3,340.27 for driving piles in connection with their contract for the construction of the Toronto Island breakwater extension, and you inform me that Mr. St. Laurent desires to know what portion, if any, of the said 448 lineal feet of piling charged as extra is included in the temporary connection made with the old breakwater, as mentioned in the second paragraph of my report dated February 24, and he also desires to know positively how many lineal feet of such piling, which would have had to be removed and re-driven, is included in the claim, and you ask me to let you have the necessary information.

With reference to the above, I would say that the whole 448 feet was practically all the temporary connection, and that 200 feet of same would have had to be removed and re-driven had no damage occurred to these works during the winter and spring of 1908-9. However, the contractors did not remove this portion but left it in the work and drove a new line of piling outside of same, which was satisfactory, so that for 200 feet there was two rows of piling.

I explained this matter fully to the Asst. Deputy Minister, verbally, during my recent visit to Ottawa, and think he thoroughly understands the situation now.

I am, sir, your obedient servant,

The Chief Engineer, Dept. Public Works. J. G. SING, *D.E.*

AUDIT OFFICE, OTTAWA, May 10, 1910.

SIR,—I beg to acknowledge receipt of your application No. 1108 for $3,340.27 in favour of Miller & Cumming, being for extra work in connection with the construction of the Toronto Island breakwater.

The account rendered is as follows:—

Long leaf southern pine piling, 96,760 ft. at $26.50		$2,564 14
Making and driving, 448 l. ft. sheet piling at $5 per l. ft.		2,240 00
Total		$4,804 14
Less: Pine piling not required, 36,750 ft. at $26.50	$973 87	
Piling not required to be driven, 245 l. ft. at $2	490 00	
		$1,463 87
Balance due for extra work		$3,340 27

'The extra work in this case was not authorized by letter, but was done to repair the damage sustained during the winter of 1908-9.'

Part of the work called for, under the contract, was not performed. 'The work of connecting the groynes with the shore was unnecessary on account of the stone wall being built, and the city filling in the rear with sand.' The amount of work not required on this account is estimated at $1,463.87.

The resident engineer states: 'I do not think the damage occurred through any

negligence on the part of the contractors, as they took every reasonable precaution to safeguard the work during the winter, although it was performed in a manner that the department could not accept; but they made a closure to protect the island, knowing that a portion of the work would have to be removed. As you are aware, it was seriously damaged with the result that 448 ft. had to be removed.'

The work was closed with the old breakwater, but the piles were driven in an irregular manner; and on account of being out of alignment, certain portions would have to be removed and re-driven.

Instead of removing the crooked line of piling, it was incorporated in the work.

In a letter of April 22, 1910, Mr. Sing states that the whole 448 feet charged as extra work, was practically all the temporary connection and that 200 feet of this would have had to be removed and re-driven, had no damage occurred. 'The contractors did not remove this portion but left it in the work, and drove a new line of piling outside, so that for 200 feet, there were two rows of piling.'

It is not clear whether the damaged 448 lineal feet of piling was of the acceptable portion, or of the temporary connection.

In the letter of April 22, it is definitely stated that the 448 feet of piling, classed as extra work, is practically all the temporary connection (200 feet of which would have had to be removed and re-driven). That this 200 feet at least was not damaged by the winter's storms might be deduced from the statement that 'for 200 feet there was two rows of piling.'

Before giving sanction to the payment of this account, it will be necessary to have full information on the following points:—

To what extent was the pile-work of the 'temporary' connection damaged?

Does the 448 lineal feet of extra pile-work include any work required to repair the damage caused by the storms during the winter and spring of 1908-9?

Was any portion of the damaged pile-work fit for further use, if removed?

What would be the probable cost per lineal foot for removing piling such as that driven out of alignment with the rest of the work?

As it is now too late to include this account in the payments for the year 1909-10, the application and accompanying papers are returned herewith.

If it is so desired, please have an application issued for this account, chargeable to the fiscal year 1910-11.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. FRASER, *A.G.*

NOTE by Auditor General, September 8, 1910; this account has not yet been paid.

Toronto Harbour: Western Entrance.

AUDIT OFFICE, OTTAWA, March 15, 1910.

SIR,—I beg to acknowledge receipt of your application No. 954, for $25,368.92, in favour of R. Weddell & Co., being for extra haul in connection with their contract to construct the western entrance at Toronto harbour, as per Order in Council of February 22, 1910.

The account is for 'towing 317,111½ cubic yards material a distance of 11 miles at 8 cents per cubic yard, being one cent per cubic yard for each additional mile over the ordinary distance of three miles.'

The following extracts from the departmental correspondence seem to deal directly with the case:—

Letter from Mr. Sing of date October 28, 1909.—'Before the work was commenced, I was led to infer that the city of Toronto would be glad to utilize all the

material, dredged from this work, for the filling in and reclaiming of a portion of Ashbridge's bay. . . . . When it was found that the contractors and the city could not agree upon a price for the material, the Board of Health compelled the contractors to tow and deposit the material to a point in the lake, 10 miles from the intake pipe.'

Chief Engineer's letter of November 6, 1909.—'No provision was made in the contract for an additional price per cubic yard for dumping beyond a certain distance, but in all other contracts for dredging entered into by the department, the contractors are entitled to one cent per cubic yard for each additional mile of towage over a distance of three miles. From Mr. Sing's report, I infer that the contractors did not go a full distance of 12½ miles, but an average distance of about 11 miles.'

The following section (No. 30) of the specification indicates how the contractors were to dispose of the spoil:—'A large portion of the dredged material will be required to be deposited in the rear of the piers in the position as directed by the engineer. . . . . The balance of the dredged material shall be dumped where directed by the engineer.'

The opportunity was given to the contractors, before tendering, to visit the site of the work, to inquire into local conditions and to consult the resident engineer, the city officials, and any other parties whose interests might be involved. In making a tender, they would take into consideration the amount of material required to fill in behind the piers, the amount to be towed away, and the probable cost of removal of the spoil to a safe dumping ground. The place of deposit would, of course, be one selected by the engineer and agreeable to all parties interested.

Mr. Sing, the resident engineer, asserts that he was led to infer that the city of Toronto would be glad to use the dredged material for filling in Ashbridge's bay. It is supposed that he gave orders to the contractors to use this place as a dumping ground. The choice, however, did not prove satisfactory because 'the contractors and the city could not agree on a price for the material.'

From any of the correspondence submitted with the application it cannot be inferred that the contractors were forbidden the use of Ashbridge's bay as a dumping ground, provided they demanded no indemnity, or were willing to accept the price offered by the city. The reclaiming of the bay was still desired. The Board of Health could offer no reasonable objection, since the location of Ashbridge's bay would prevent any contamination, from the spoil, of the waters around the intake pipe.

No provision was made in the contract for any additional price for towing beyond a certain distance. The contract called for the removal of the spoil to a dumping ground chosen by the engineer. Whether the place decided upon was three miles distant or much farther away, the contractors would have had to tow the material to it. The clause setting a three-mile limit for towage without extra charge (which is inserted in the ordinary dredging contracts) is not binding on either party to a contract from which it has been omitted. The fact that no such limit was placed in the contract would lead to the conclusion that towage to the dumping ground indicated by the engineer, was considered necessary to fulfil the terms of the contract and to earn the price agreed upon.

The place of deposit, first chosen, proved undesirable because the contractors and the city could not agree upon the price. The bay was the property of the corporation and the officials had the right to say whether it be used as a dumping ground or not. If, through the action of the contractors, in demanding a price for the dumped material, the only available dumping ground, close at hand, was withdrawn from use, the contractors themselves should bear all extra expense incurred by the choice of the new dumping ground.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

1—24v

PUBLIC WORKS DEPT., OTTAWA, April 26, 1910.

SIR,—With reference to your letter of the 15th ultimo, in regard to our application No. 954 for $25,368.92, in favour of R. Weddell & Co., being for extra haul in connection with their contract to construct the western entrance at Toronto harbour, as authorized by Order in Council of February 22, 1910.

In reply, I am directed to inclose herewith copy of a report from our resident engineer, Mr. Sing, with copy of letter of the harbour master, mentioned therein.

The department trust that this further information will be found satisfactory and enable you to pass the application.

I am, sir, your obedient servant,

The Auditor General. R. C. DESROCHERS, *Asst Sec.*

TORONTO, April 11, 1910.

SIR,—I respectfully acknowledge the receipt of your letter No. 8165, dated 29th ulto., inclosing a memo. from the Asst. Deputy Minister asking that I be requested to report fully on the point raised by the Auditor General in the attached letter regarding the application for $25,368.92 in favour of R. Weddell & Co., for overhaul in connection with their contract for construction of the new western channel, Toronto, and you ask me to note what Mr. St. Laurent says regarding the information required by the Auditor General and let you have a report giving full particulars in connection therewith.

In obedience to your instructions I have carefully noted the remarks of the Asst. Deputy Minister and of the Auditor General, and would say with reference to the dumping of material dredged from the western channel in Ashbridge's bay; the material had first to be dumped in the harbour proper as near as possible to Ashbridge's bay, which is separated from the harbour proper by a roadway and two rows of piling, and then pumped into same by either a hydraulic dredge or a sand pump, and unless the material was immediately removed from the harbour and deposited in Ashbridge's bay, the depositing of material in the harbour would not be permitted, under any circumstances, by the Harbour Commissioners or by myself. I inclose, herewith, copy of a letter I have received this morning, from the harbour master confirming his verbal orders, given in August, 1908, to the R. Weddell Co., refusing them permission to deposit any material in the harbour.

I am, sir, your obedient servant,

The Chief Engineer, Public Works. J. G. SING, *D.E.*

TORONTO, April 9, 1910.

DEAR SIR,—In reply to your inquiry I confirm my verbal statement that in August, 1908, I refused Weddell & Co., permission to dump any material in the limits of the harbour as such action would have filled up the channels and obstructed navigation; also it would have been a breach of the Commissioners by-law No. 11, section No. 1.

I am, sir, your obedient servant,

J. G. Sing, C.E. COLIN W. POSTLETHWAITE, *H.M.*

AUDIT OFFICE, OTTAWA, May 3, 1910.

SIR,—I have to acknowledge receipt of your letter of April 26 in further discussion of the claim for extra work at Toronto harbour under contract of R. Weddell & Co.

This is a contract let to R. Weddell & Co. for a new western entrance to the harbour of Toronto, after tender and public advertisement.

The contractors undertake to perform and complete the work in accordance with the specifications marked 'A' attached to the contract for the sum of $495,000.

Your application of March 1 for the issue of a cheque for $25,368.92 in favour of the contractors is stated as being for extra haul in connection with contract, and has been authorized by Order in Council of February 22, 1910.

Mr. Sing, engineer in charge, in his letter of October 28, 1909, says: 'With regard to overhaul, I would say: before this work was commenced, I was led to infer that the city of Toronto would be glad to utilize all the materials dredged from this work for the filling in and reclaiming of a portion of Ashbridge's bay, and in fact, some 82,588½ cubic yards, scow measurement, were used for this purpose last season, and formed some 7 or 8 acres of land.

'When it was found that the contractors and the city could not agree upon a price for this material, the Board of Health compelled the contractors to tow and deposit the material dredged from the channel to a point in the lake 10 miles from the intake pipe, &c.'

The Order in Council of February 22 last is as follows:—

'On a memorandum dated December 24, 1909, from the Minister of Public Works, stating that Messrs. R. Weddell and Company were awarded a contract under date of May 15, 1908, for the construction of a new western entrance to Toronto harbour, Ont., for the sum of $495,000 and work has been performed to date thereon to the amount of $298,942.

'The Minister observes that the contract entailed a considerable quantity of dredging which was begun by the contractors who dumped the dredged material at a place indicated by the engineer in charge, but the Board of Health of the city of Toronto objected to the dumping ground specified and insisted that the spoil be deposited in the lake at a distance of ten miles from the city's intake pipe. Such requirement of the city medical health officer compelled the contractors to tow farther than the usual maximum distance of three miles, which, under the regulations of the Department of Public Works, dredging contractors are required to tow without extra charge;

'That at the time of letting this contract it was not possible for either the department or the contractors to foresee that the material dredged would require to be deposited at such a distance from the site of the work and the contractors represented that in all fairness they should be allowed compensation for the additional overhaul imposed upon them by the Board of Health;

'That the chief engineer and the resident engineer of the Department of Public Works have gone carefully into the matter and report that the claim is well founded and that the contractors be allowed for an overhaul of eight miles on a quantity of 317,111½ cubic yards of material; they recommend the payment to Messrs. Weddell & Company for the additional towing beyond the ordinary distance of three miles, of the sum of $25,368.92, being at the rate of one cent per cubic yard for each additional mile of tow.

'The Minister, in view of the foregoing, recommends that authority be given to pay to Messrs. R. Weddell and Company the said sum of $25,368.92 for overhaul of

material in connection with their contract for the construction of the western entrance, Toronto harbour, Ont., as stated above.

'The Committee submit the same for approval. (Sgd.) R. BOUDREAU, *C.P.C.*'

Section 30 of the specifications annexed to the contract deals with dredging. It states that: 'a large portion of the dredged material will be required to be deposited in rear of the piers in the position as directed by the engineer, and the contractor must furnish suitable plant for this class of work. The balance of the dredged material shall be dumped where directed by the engineer.'

The chief engineer, in his letter of November 6, 1909, says: 'As regards the item for overhaul, I may say that no provision is made in the contract for an additional price per cubic yard for dumping beyond a certain distance, but in all other contracts for dredging entered into by the department, the contractors are entitled to one cent per cubic yard for each additional mile of towage over and above a distance of three miles.'

To sum up the whole matter, it appears to me:—

1. That this is not an ordinary dredging contract.

2. It is a lump sum contract for the whole work of construction of piers, dredging, &c.

3. A portion of the dredged material was to be used for filling in behind the piers.

4. The balance of the dredged material is to be dumped where the engineer directs.

5. The consideration for the whole work is to be $495,000.

6. As there is no provision for any payment for overhaul, it may be presumed that it is included in the above sum.

7. Any such payment as is contemplated in the Order in Council would be additional remuneration for work which the contractors have undertaken to perform under the contract.

Why should such additional remuneration be given or in what way has the government any reason for giving such additional remuneration?

A certain amount of dredged material is to be placed behind the piers. That has been done. As regards the balance of the dredged material, it is to be placed where the engineer directs and the contractors are bound to furnish suitable plant to dredge and dispose of the material. Although it is not so stated in the correspondence, the engineer, I presume, has given permission, if he has not so directed, to deposit the balance of the material in Ashbridge's bay. It is stated that the reason for not so disposing of it is because the contractors and the city could not agree upon a price for this material. The contract does not call upon the government to procure from the city or from any body any price for the material, that is entirely a matter for the contractor.

The engineer, no doubt having been informed by the contractors of the difficulties encountered in not being able to obtain remuneration from the city, directed them to deposit it in the next available place, viz.: 11 miles from the intake pipe. In so doing he was clearly within the terms of the contract, and the contractors were bound to tow away to this distance without any additional remuneration.

There is nothing to show that the city refused to let the contractors deposit in Ashbridge's bay had the contractors chosen to do so without remuneration, but it is stated that the contractors would require to dump first in the harbour and then use a hydraulic dredge to pump the material over a bar or piers, thus having to handle

the material a second time. They must have been aware of these conditions when the contract was entered into.

The only unforeseen conditions must have been the failure of the contractors to obtain as much as they desired from the city for the material. The contractors should have guarded against this before entering into the contract. It was no part of the duty of the government to secure a price for the material. In my opinion, the sum of $25,368.92 applied for to be paid to the contractors is not justly due.

I would therefore suggest that the opinion of the Department of Justice be obtained as to the legal liability of the government in the matter.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. FRASER, *A.G.*

AUDIT OFFICE, OTTAWA, May 11, 1910.

SIR,—Referring to my letter of 3rd instant, in connection with your application to pay R. Weddell & Co. $25,368.92 for extra haul in contract for Toronto harbour improvements, and our discussion of the matter to-day, I beg to say that, in my opinion, an Order in Council is not sufficient authority for making the payment. I am also of the opinion that the money is not due under the terms of the contract. I am therefore obliged to refuse to certify that a cheque of the Minister of Finance may issue.

This action is taken under sections 42 and 43 of the Consolidated Revenue and Audit Act.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. FRASER, *A.G.*

Dredging: Maritime Provinces.

AUDIT OFFICE, OTTAWA, December 21, 1909.

SIR,—Let me acknowledge receipt of October vouchers for expenditure by Messrs. Scovil & Adams, under letter-of-credit, for 'Dredging in Maritime Provinces.'

The certificates required by sec. 33 of the Audit Act, namely 'work performed,' 'materials received,' and 'prices fair and just,' are not used by this branch of the service in the same manner as elsewhere.

The three certificates are run together, and signed by the superintendent, i.e., Mr. Scovil at St. John, or Mr. Graham at North Sydney. Mr. Graham signs for the dredges *Canada*, *Cape Breton* and *Northumberland*, Mr. Scovil for the others. The dredge captain's signature is usually present, but attached to no definite statement of fact.

Now, the superintendent is unable to give direct personal testimony as to the receipt of all the materials, or the performance of all the work. For instance, see the two October vouchers which follow:—

Tug *E. M. Cates*, with dredge *Cape Breton* at Ingonish: 25 d. at $30—$750.

S.S. *S. S. Ralph*, with dredge *Canada* at Port Mouton: 26 d. at $30—$780.

Even if it were part of a superintendent's duty to follow a dredge, he obviously could not follow two, and he is therefore certifying without personal knowledge.

The proper officer to certify 'work performed' and 'materials received' would be the captain or engineer. The superintendent might certify 'prices fair and just,' if the dredge officials approve the quality.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

PUBLIC WORKS DEPT., OTTAWA, December 31, 1909.

SIR,—I have the honour to acknowledge the receipt of your letter of the 21st instant, in reference to October vouchers for expenditure by Messrs. Scovil & Adams under letter-of-credit for 'Dredging in Maritime Provinces,' and to state that the matter will have due attention.

I am, sir, your obedient servant,

The Auditor General. R. C. DESROCHERS, *Asst. Sec.*

New Dredging Plant: Purchase of Tug 'Cliffside.'

AUDIT OFFICE, OTTAWA, July 19, 1910.

SIR,—Let me acknowledge receipt of your application No. 214 for $9,000 in favour of the Ottawa Forwarding Co., being purchase price of the tug *Cliffside,* as by Order in Council of June 22, 1910.

Steamboat Inspector Wm. Laurie's certificate of May 4, 1910, addressed to Supt. Godwin, reads as follow:—'In reference to your inquiry about the tug *Cliffside,* I beg to say that she is a new boat built during the winter of 1909 of the best lumber that could be procured. The engine was built by J. & R. Weir, of Montreal, and is at present as good as new. The boiler was also built by J. & R. Weir about the same time, and was thoroughly overhauled before being put in the boat, and is now good for 125 lbs. pressure for a number of years to come.'

Please get the dates of construction of the engine and boiler, a description of the work at which they have since been employed, and the reasons why they were not retained.

It would be well to have also their original cost, their estimated depreciation, and a calculation of the part which they now take in the valuation of $9,000 for the whole vessel.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

PUBLIC WORKS DEPT., OTTAWA, July 23, 1910.

SIR,—With reference to your letter of the 19th instant, respecting our application No. 214, for $9,000, in favour of the Ottawa Forwarding Company, being purchase price of the tug *Cliffside,* I am directed to enclose herewith, copy of a report received from the Assistant Superintendent of Dredging, containing the information desired by you in the matter.

I am, sir, your obedient servant,

The Auditor General. R. C. DESROCHERS, *Asst. Sec.*

OFFICE OF SUPT. OF DREDGING, OTTAWA, July 21, 1910.

Memorandum for the Deputy Minister:-

With reference to the attached letter of the Auditor General dated the 19th instant regarding further information required in connection with the tug *Cliffside,* I have the honour to state as follows:—

The boiler was first built in 1896 and the engine in 1902. They were originally used on a freight boat, but after two years' service on this boat a new hull was built

(the present one), and the boiler and engine transferred to it, and the boat used for towing purposes for different companies as well as for the Public Works Department. The reason this transfer was made was owing to the fact of the traffic on the freight boat increasing to such an extent that it was found necessary to install larger machinery.

The owner states that the original cost was as follows:—

Hull	$ 7,000
Boiler	3,000
Engine	2,000
	$12,000

as per attached letter.

I consider there has been little, if any, depreciation in the value of the engine and boiler, as you will see by the Steamboat Inspector's report.

In estimating the value of this tug when examining it, I took into consideration what it would cost the department to build a new boat of similar dimensions, which would be as follows:—

Hull	$7,500
Boiler and fittings	2,300
Engine and machinery	2,500

or say at least $12,000 for the department to build.

E. B. GODWIN,
Asst. Supt. of Dredging.

DEAR SIR,—In reply to your inquiry regarding the tug *Cliffside,* we beg to say that the cost of the vessel to us as she stands to-day is as follows:—

Hull	$7,000 00
Boiler and fittings	3,000 00
Engine and machinery	2,000 00

This includes all fittings.

I am, sir, your obedient servant,

E. B. Godwin, Esq. THE OTTAWA FORWARDING CO., LTD.
Per JAS. H. HALL.

OTTAWA, May 4, 1910.

DEAR SIR,—In reference to your inquiry about the tug *Cliffside,* I beg to say that she is a new boat built during the winter of 1909, of the best lumber that could be purchased, the engine was built by J. & R. Weir, of Montreal, and is at present as good as new. The boiler was also built by J. & R. Weir, about the same time and was thoroughly over-hauled before being put in the boat and is now good for 125 lbs. pressure for a number of years to come.

WM. LAURIE.

E. B. Godwin, Esq.,
Asst. Genl. Supt. of Dredging.

PUBLIC WORKS DEPT., OTTAWA, July 15, 1910.

In reply to your inquiry regarding the date of inspection of the tug *Cliffside*, I beg to say that the first inspection took place on April 16, last, and the second on May 12, last. Trial runs were given on both occasions and proved satisfactory.

I am also inclosing herewith a copy of the steamboat inspector's letter to me.

Memo. for Auditor General. E. B. GODWIN.

DEPT. OF JUSTICE, OTTAWA, July 8, 1910.

Re Purchase of Tug 'Cliffside.' A. 757.

SIR,—I have the honour to enclose herewith certificate of registry with ownership of His Majesty endorsed upon it; also bill of sale from the Ottawa Forwarding Co. to the King duly registered. The title being now vested in the King, the purchase money may be paid direct to the Ottawa Forwarding Co. I am to add that Mr. Hall, the vice-president of the Ottawa Forwarding Co., is anxious that the Crown should at once take possession of the tug.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FRANCIS H. GISBORNE, *Sec.*

Certified Copy of a Report of the Committee of the Privy Council, approved by His Excellency, the Administrator, on June 22, 1910.

On a memorandum dated June 17, 1910, from the Minister of Public Works submitting that it is necessary to provide a light draught tug to serve as tender for dredge No. 3 of the Department of Public Works, operating in the Ottawa and St. Lawrence rivers.

The Minister states that the Ottawa Forwarding Co., Limited, have a tug, the *Cliffside*, which would be suitable in every respect for the purposes of the Department of Public Works, and which they are disposed to sell for the sum of $9,000;

That the Assistant General Superintendent of Dredging, who has examined the vessel, reports that the price asked for same is fair and reasonable.

The Minister, therefore, recommends that authority be given to purchase from the Ottawa Forwarding Company, Limited, the tug *Cliffside* for the said sum of $9,000.

The Committee submit the same for approval.

RODOLPHE BOUDREAU,

The Hon. the Minister of Public Works. *Clerk of the Privy Council.*

OFFICE OF SUPT. OF DREDGING, OTTAWA, April 5, 1910.

SIR,—In accordance with your instructions, contained in File No. 346119, enclosing an offer from the Ottawa Forwarding Company to sell to this department their tug *Cliffside*. I have the honour to state that as soon as this vessel was ready for commission I fully examined her and found her to be in first-class condition after a trial run of five miles on the Ottawa river.

Her dimensions are as follows:—

Hull.

Built of oak, elm and tamarack.
Length over all, 71 feet.
Beam, 16 feet 6 inches.
Depth of hold, 6 feet 6 inches.
Draught, light, 5 feet 6 inches.
Can be trimmed to 7 feet.
Gross tonnage, 68 tons.
Registered tonnage, 23½ tons.
Official number 126405.

Engine.

High pressure, 15 x 15, turning a 5-foot 2-inch wheel.

Boiler.

Fitzgibbon type, carrying a working pressure of 125 lbs. per square inch. Equipped with necessary feed pump and injector.

This vessel being fully equipped for service, it would be very suitable for our work at the present time, as we have no tug available as tender for our dredge No. 3, which is now ready for work. I consider this tug to be worth $9,000.

This vessel was completed about the middle of May, 1909.

I am, sir, your obedient servant,

EUGENE D. LAFLEUR, Esq., Chief Engineer. E. B. GODWIN, *Asst. Gen. Supt.*

AUDIT OFFICE, OTTAWA, September 19, 1910.

SIR—In further discussion of the purchase of the tug *Cliffside* from the Ottawa Forwarding Company for $9,000:—

Supt. Godwin reports, in his letter of July 21, 1910, that 'the boiler was first built in 1896, and the engine in 1902.' In a previous letter (April 5, 1910), he valued the *Cliffside* at $9,000.

The official Steamboat Inspector, Mr. Wm. Laurie, in his letter of May 4, 1910, says: 'She is a new boat, built during the winter of 1909, of the best lumber that could be purchased. The engine was built by J. & R. Weir, of Montreal, and is at present as good as new. The boiler also was built by J. & R. Weir about the same time, and was thoroughly overhauled before being put in the boat, and is now good for 125 lbs. pressure for a number of years to come.'

It is difficult to say, after considering this latter certificate, whether Inspector Laurie was aware of the boiler's age, namely 14 years. Please ask him to cover this point explicitly; also to estimate more closely the boiler's future life, and to confirm the valuation of $9,000 for the whole vessel.

In a purchase of this kind, age may seem a minor item, to those handling the materials, if the latter are satisfactory in all other ways. But those of us who are mainly concerned in the completeness of an accounting system would like to have the age recorded at the first stage of the purchase, so that responsibility can be shared by all the officers who are subsequently called upon to approve.

In the case now in hand, please have the Order in Council revised in this sense.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. FREDERICK HAYTER, *for A.G.*

NOTE by Auditor General, September 8, 1910: Of this $9,000, $6,000 has been paid on account, and $3,000 held.

Re **Rents at Ottawa.**

AUDIT OFFICE, OTTAWA, January 22, 1910.

SIR,—According to returns furnished, the Le Temps Publishing Company were in arrears on March 31 last $321 for rent.

The rental is $50 per month, and for the 8 months to November 30, $400, only $247.60 was paid. After allowing them $163.25 for repairs (for which vouchers should be furnished, the balance due was $310.15. Nothing was paid in November. This company should be required to reduce its arrears and to keep current rent paid up.

A. Bureau & Frere were in arrears $200 on March 31 last. The rental for the 8 months to November 31 is $200, and only $125 has been paid, the last payment having been made in August. Your collector states that this case is in the hands of Mr. McLean for collection, and no doubt will receive attention.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. FRASER, *A.G.*

PUBLIC WORKS DEPT., OTTAWA, January 25, 1910.

SIR,—Replying to your favour of the 22nd instant, I beg to say that the department is taking legal steps for the collection of the rental owing in the case of A. Bureau & Frères, and attention is also being given to the case of Le Temps Publishing Company, who are also in arrears.

I am, sir, your obedient servant,

The Auditor General. J. B. HUNTER, *D.M.*

AUDIT OFFICE, OTTAWA, February 19, 1910.

SIR,—Referring to the arrears due by Le Temps Publishing Company for rent for premises on Susses street, I understand that the only amounts paid are such accounts as the paper hold from time to time against your department. I may inform you that the accounts against your department are but a small proportion of the accounts paid this paper by the other departments. During the year 1908-9, $2,544.99 was paid.

Your collector should inform the manager that unless the rent is paid up steps will be taken through the Treasury Board to retain sufficient of the accounts from the other departments to meet the rent.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. FRASER, *A.G.*

PUBLIC WORKS DEPT., OTTAWA, March 4, 1910.

SIR,—With reference to your letter of the 19th ultimo in regard to arrears of rent due by Le Temps Publishing Company, for premises on Sussex street, I beg to inform you that Mr. McLean, who has this matter in hand, has already collected $100 on account of such arrears and it is expected another substantial payment will be made by the company on the 15th of this month.

I am, sir, your obedient servant,

The Auditor General. NAPOLEON TESSIER, *Sec.*

PUBLIC WORKS DEPT., OTTAWA, February 28, 1910.

SIR,—I beg to acknowledge the receipt of your letter of the 19th instant, in reference to arrears of rent due by Le Temps Publishing Company for premises on Sussex street, and to state in reply that, following your suggestion, the manager will be notified that, unless the rent is paid up, steps will be taken through the Treasury Board to retain sufficient of the accounts from the other departments to meet the rent.

I am, sir, your obedient servant,

The Auditor General. NAPOLEON TESSIER, *Sec.*

Wharfs not Transferred to Department of Marine and Fisheries.

AUDIT OFFICE, OTTAWA, December 31, 1909.

SIR,—In your letter of January 18, 1909, you stated that the question of the transfer of wharfs to Department of Marine and Fisheries had been submitted by the Privy Council to the Minister of Marine and Fisheries, to suggest some scheme for the transfer of these wharfs and the collection of tolls thereon.

I have to inquire if the Minister of Marine and Fisheries has since submitted his report, and, if so, what action has since been taken thereon.

I have also to ask for a list of all wharfs transferred since January 1, 1908. I should be informed regularly either monthly or quarterly, of all transfers.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. FRASER, *A.G.*

PUBLIC WORKS DEPT., January 3, 1910

SIR,—Replying to your favour of the 31st ultimo, *re* wharfs not transferred to the Department of Marine and Fisheries, I beg to state that, so far as I am aware, no definite policy in regard to this matter has yet been decided upon.

I shall have pleasure in furnishing you, as requested, with a list of all the wharfs transferred since January 1, 1908, and will give instructions that you be informed at regular intervals regarding future transfers.

I am, sir, your obedient servant,

The Auditor General. J. B. HUNTER, *D.M.*

AUDIT OFFICE, OTTAWA, June 21, 1910.

SIR,—On January 3 last you wrote that, so far as you were aware, no definite policy in regard to transfers of wharfs to the Department of Marine and Fisheries had yet been decided upon.

Has anything since been done in reference thereto?

You also stated that you would furnish a list of all the wharfs transferred since January 1, 1908. So far I have not received this list.

I shall be glad to have this list, and also a list of all wharfs that are finished but have not been transferred, stating when completed.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. FRASER, *A.G.*

PUBLIC WORKS DEPT., OTTAWA, June 30, 1910.

SIR,—Replying to your favour of the 21st instant, I beg to say that I am not aware of further action having been taken in connection with transfer of wharfs to the Department of Marine and Fisheries.

I beg to enclose you a list of wharfs transferred to that department since January 1, 1908, and am having another list prepared, as requested, of all the wharfs that are finished but have not yet been transferred, with the date of their completion.

I am, sir, your obedient servant,

The Auditor General. J. B. HUNTER, *D.M.*

AUDIT OFFICE, OTTAWA, July 12, 1910.

SIR,—I have recently received from the Deputy Minister of Public works a list of completed wharfs which have not been transferred to Department of Marine and Fisheries:

In the Province of Nova Scotia—		
Completed in	1907	6
"	1908	5
"	1909	21
"	1910	1
		33
In the Province of Prince Edward Island—		
Completed in	1907	1
In the Province of New Brunswick—		
Completed in	1907	1
"	1908	1
"	1909	12
		14
In the Province of Quebec—		
Completed in	1906	1
"	1907	2
"	1908	10
"	1909	27
		40
In the Province of Ontario—		
Completed in	1907	1
"	1908	4
"	1909	16
		21
In the Province of Manitoba—		
Completed in	1909	1
In the Province of British Columbia—		
Completed in	1908	4
"	1909	12
		16
	Total	126

No fees have been accounted for from any of these wharfs.

Please inform me of the action of the Treasury Board in reference thereto.

I am, sir, your obedient servant,

The Secretary of the Treasury Board. J. FRASER, *A.G.*

Bublic Buildings: Alberta.

AUDIT OFFICE, OTTAWA, May 4, 1910.

SIR,—Referring to previous correspondence in reference to the transfer of the public buildings in Alberta to the provincial government, I have to inquire if any agreement has yet been come to in reference thereto.

A settlement was made with the province of Saskatchewan in 1906 for the public buildings in that province for $231,474.96, the greater part of which has since been paid.

That province also pays rent every year for the land office in Regina, and for the land office and court house in Prince Albert.

Nothing has come to account from the province of Alberta in payment for the public buildings, and nothing for their rent.

Under the circumstances, I feel obliged to refer the matter to the Treasury Board, but will defer doing so for a few days to give you an opportunity to reply.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. FRASER, *A.G.*

PUBLIC WORKS DEPT., OTTAWA, May 7, 1910.

SIR,—I am in receipt of your favour of the 4th instant, with reference to public buildings, Alberta, and have referred same to the accountant for report.

I am, sir, your obedient servant,

The Auditor General. J. B. HUNTER, *D.M.*

AUDIT OFFICE, OTTAWA, August 29, 1910.

SIR,—On May 7 last you wrote acknowledging my letter of the 4th in *re* the public buildings, province of Alberta, stating you had referred same to your accountant for report.

I have not heard from you since in reference thereto, and nothing has since come to account.

Under the circumstances, I am obliged to refer the matter to the Treasury Board.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. FRASER, *A.G.*

AUDIT OFFICE, OTTAWA, August 29, 1910.

SIR,—I beg to enclose for the information of the Treasury Board and for such action as it may deem fit, copy of the correspondence with the Department of Public Works, in reference to the public buildings in the province of Alberta.

I am, sir, your obedient servant,

The Secretary of the Treasury Board. J. FRASER, *A.G.*

PUBLIC WORKS DEPT., OTTAWA, September 9, 1910.

SIR,—With reference to your favour of the 29th ultimo, with respect to Alberta public buildings, I beg to say that I now have the Accountant's report in this matter which I am taking up with Hon. Mr. Sifton, Premier of Alberta.

I am, sir, your obedient servant,

The Auditor General. J. B. HUNTER, *D.M.*

Arrears Due: Cheneaux Boom.

AUDIT OFFICE, OTTAWA, March 22, 1910.

SIR,—On January 9, 1909, I called your attention to the arrears due for dues accrued at the Cheneaux boom during the season of 1907 amounting to $3,152.40. No part of these arrears has since been paid.

The dues accrued during the season of 1908 were all paid.

The dues accrued during the season of 1909 amounting to $6,154.07 are still unpaid.

It seems the lumbermen who owe these dues are looking for a reduction. However, that is no reason why they should be allowed to get in arrears. The dues established by the Act must be paid, until they are reduced by proper authority.

I purpose reporting this matter to the Treasury Board, but before doing so I will await your reply.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. FRASER, *A.G.*

PUBLIC WORKS DEPT., OTTAWA, April 5, 1910.

SIR,—I beg to acknowledge your favour of the 22nd ultimo, which was duly received, with reference to arrears due by lumber firms on the Ottawa river in connection with Cheneaux boom.

Considerable difficulties have apparently presented themselves in arriving at a decision on the application of the lumbermen for a reduction in the tolls levied for the use of this work, but I shall discuss the matter fully with the Hon. the Minister at the earliest opportunity with a view to arriving at some settlement of the matter.

I am, sir, your obedient servant,

The Auditor General. J. B. HUNTER, *D.M.*

AUDIT OFFICE, OTTAWA, June 29, 1910.

SIR,—I beg to enclose for the information of the Treasury Board, and for such action as may seem proper, the correspondence with the Department of Public Works in reference to the arrears due for charges at the Cheneaux boom, now amounting to $9,258.58.

I am, sir, your obedient servant,

The Secretary of the Treasury Board. J. FRASER, *A.G.*

Department of Public Works,
Ottawa, March 19, 1910.

EDW. T. SMITH,
Collector of Public Works Revenue.

Saguenay Boom Dues.

AUDIT OFFICE, OTTAWA, March 3, 1910.

SIR,—The Chicoutimi Pulp Company are now indebted for four years' boom dues amounting to over $7,000.

I called your attention to these arrears on June 9, 1909, and you replied on June 10 that you had taken action through the Justice Department for the collection of the amounts due, but the action was stayed, a proposition of settlement having been made to the Minister, which is having his consideration.

In your letter of November 26, 1909, you stated that the Saguenay accounts have recently been thoroughly considered, and I think this matter is now in shape for a settlement very shortly.

I do not find that anything has since come to account.

It is most objectionable that any company should be allowed to neglect paying its liabilities for four years.

I am sending a copy of the correspondence to the Treasury Board.

I am, sir, your obedient servant,

The Deputy Minister, Public Works.

J. FRASER, *A.G.*

PUBLIC WORKS DEPT., OTTAWA, March 7, 1910.

SIR,—Replying to your favour of the 4th instant, I beg to say that the question of the Chicoutimi Pulp Company's indebtedness to this department, on account of boom dues on the Saguenay river, has been most carefully gone into, and a proposed settlement is now under consideration which, it is hoped, will finally dispose of this matter.

I am, sir, our obedient servant,

The Auditor General.

J. B. HUNTER, *D.M.*

AUDIT OFFICE, OTTAWA, March 4, 1910.

SIR,—I beg to enclose correspondence with the Department of Public Works in reference to arrears due by the Chicoutimi Pulp Company for boom dues on the Saguenay river.

Nothing has been paid on the dues accrued during the last four years, now amounting to over $7,000.

Please submit the matter to the Treasury Board and advise me of its action in reference thereto.

The Secretary of the Treasury Board. J. FRASER, *A.G.*

TREASURY BOARD, OTTAWA, May 13, 1910.

SIR,—I have the honour to acknowledge receipt of your letter of March 4, 1910, enclosing for action of the Treasury Board correspondence with the Department of Public Works in reference to arrears due by the Chicoutimi Pulp Company for boom dues on the Saguenay river.

I have the honour to inform you that the matter having been considered by the board, a minute, under date April 25, 1910, has been passed, a copy of which I enclose herewith, recommending that the matter be referred to the Department of Public Works with a view of that department taking, on the advice of the Department of Justice, whatever action is deemed necessary for the collection of the amount in question.

I am, sir, your obedient servant,

The Auditor General. T. C. BOVILLE, *Sec.*

EXTRACT from the Minutes of a meeting of the Honourable the Treasury Board, held at Ottawa, on April 25, 1910.

Treasury Board.—The board had under consideration a communication from the Auditor General under date of March 4, 1910, enclosing correspondence with the Department of Public Works in reference to arrears due by the Chicoutimi Pulp Company for boom dues on the Saguenay river, nothing having been paid on the dues accrued during the last four years, now amounting to over $7,000.

The board recommend that the matter be referred to the Department of Public Works with a view to that department taking, on the advice of the Department of Justice, whatever action is deemed necessary for the collection of the amount in question.

T. C. BOVILLE, *Sec.*

Intercolonial Railway: Equipment Renewal Account.

CANADIAN GOVERNMENT RAILWAYS, OTTAWA, February 2, 1910.

DEAR MR. FRASER,—You will probably recall that for the last three years we have had an account on the Intercolonial Railway known as the 'Equipment Renewal Account' to which is credited, monthly, a certain sum charged against 'Working Expenses.'

We have now decided to extend the account so as to include the Maintenance of Rails, and for the current year a charge of $100,000 has been made. A contract has been awarded to the Provincial Steel Company, of Cobourg, Ont., for the re-rolling of about thirty miles of 110-lb. rails into 80-lb. rails, producing thirty-seven miles of the 80-lb. rail. In addition, a contract has been made with the Dominion Iron & Steel Co. for the supply of 5,000 tons of 80-lb. new steel rails. It is quite possible that neither of these contracts will be completed before the end of the fiscal year, and our intention is to carry over any surplus to the credit of the account just as is done in 'Renewal Equipment Account.'

I feel sure that this arrangement will meet with your approval as it is in line with all the best methods of railroading on the continent.

I am, sir, your obedient servant,

The Auditor General. M. J. BUTLER.

AUDIT OFFICE, OTTAWA, February 21, 1910.

SIR,—Let me acknowledge receipt of a letter from your department, dated February 2nd, stating that the Intercolonial Railway Open Account called 'Equipment Renewal' is to be extended to cover Maintenance of Rails as well as Rolling Stock.

The arrangement is satisfactory to this office.

The letter is returned herewith, as it is understood that no copy was kept.

Mr. Bell of your department suggests that the amount might be raised to $150,000. I have no objection.

I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals. J. FRASER, *A.G.*

Canadian Northern Railway: Hawkesbury to Ottawa.

AUDIT OFFICE, OTTAWA, December 30, 1909.

SIR,—Let me acknowledge receipt of your application No. 475 for $250,982.40 in favour of the Canadian Northern Ontario Railway Co., for a subsidy amounting to 87 per cent of $5,120 a mile, on 57 miles of railway from Hawkesbury to Ottawa.

The papers in hand do not contain the usual engineer's estimate in detail, of the total cost. Mr. Johnson mentions an approximate estimate of $1,415,745, dated March 24, 1909: please send a copy to this office.

In the estimate of work done to May 31, 1909, whose total is $1,220,743.85—the item 'right-of-way, $170,000' might be amplified to 'right-of-way outside of any city or incorporated town,' to meet the restrictions on page 5 of the contract.

On page 8 of the contract, we notice that 'the company shall not be entitled to any payments' until it has filed in the office of the chief engineer a statement of sums due for wages and materials and still unpaid. We would like to be informed,

in the present and succeeding cases, that this provision of the contract has been satisfied.

I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals. FREDERICK HAYTER, *for A.G.*

RAILWAYS AND CANALS DEPT., OTTAWA, January 11, 1910.

SIR,—I am in receipt of your letter, dated the 30th ultimo, with reference to application No. 475, for the payment of a sum of $250,982.40, in favour of the Canadian Northern Ontario Railway Company, to cover subsidy due amounting to 87 per cent of $5,120 per mile on 57 miles of railway from Hawkesbury to Ottawa.

I understand a copy of the detailed estimate prepared by the engineer has been forwarded to you by the accountant of the department.

You state that the estimate of work done under item 'right-of-way' might be amplified to 'right-of-way outside of any city or incorporated town' to meet the restriction on page No. 5 of the contract. The provisions of the Subsidy Act, and the form of contract prepared in accordance therewith, provide that the item 'right-of-way' shall include only the right-of-way outside of any city or incorporated town. All our estimates for years past have shown the heading 'right-of-way,' which, it is understood, covers the point raised by you, and, therefore, does not require any explanation along the lines indicated. To do so would only change the title and serve no useful purpose.

With regard to the paragraph in your communication dealing with clause on page 8 of the contract, reading 'the company shall not be entitled to any payments' until it has filed in the office of the chief engineer a statement of sums due for wages and material and still unpaid. Upon presentation of claims to the department, it is the practice to withhold from the subsidy due an amount sufficient to cover, until we have been satisfied of the legality of the claim or received assurance that same has been paid by the company affected. I think you will realize the impossibility of securing a statement such as you suggest.

I am, sir, your obedient servant,

The Auditor General. M. J. BUTLER, *D.M.*

Transcontinental Railway: Solid Rock in Coffer Dams.

AUDIT OFFICE, OTTAWA, January 7, 1909.

SIR,—In the contract of M. P. & J. T. Davis, mile 0 to 150 easterly from Quebec, certain quantities of 'solid rock in coffer dams' have been paid for at $10 per cubic yard.

Item 8 of the schedule provides a rate of $5 per cubic yard for 'excavation of foundations within coffer dams.'

I have to request that a re-classification under item 8 be made in the December estimate of these amounts.

I am, sir, your obedient servant,

The Secretary, Natl. Transcl. Ry., Ottawa. J. FRASER, *A.G*

AUDIT OFFICE, OTTAWA, November 6, 1909.

SIR,—On January 7, 1909, we wrote you advising that on the contract of M. P. & J. T. Davis, mile 0 to 150 easterly from Quebec, certain quantities of 'solid rock in coffer dams' had been paid for at $10 per cubic yard, and requesting that re-classification be made in the December, 1908, estimate under item 8 of the schedule, 'excavation of foundations within coffer dams' at $5 per cubic yard.

We have no record of your reply to the said letter, and the re-classification requested has not been made.

Please favour us with an answer.

I am, sir, your obedient servant,

The Secretary, N. T. Railway. FREDERICK HAYTER, *for A.G.*

TRANSCONTINENTAL RAILWAY, OTTAWA, November 10, 1909.

DEAR SIR,—Replying to your letter of the 6th instant, *re* 'solid rock in coffer dams, M. P. & J. T. Davis contract, mile 0 to 150 easterly from Quebec,' I have the honour to hand you herewith a copy of a letter from our chief engineer dated September 29, ultimo, which speaks for itself.

I am, sir, your obedient servant,

The Auditor General. P. E. RYAN, *Secretary.*

TRANSCONTINENTAL RY., OTTAWA, September 29, 1909.

DEAR SIR,—I return herewith letter of the Auditor General dated January 7, 1909, (which has just been unearthed) in regard to certain quantities of solid rock in coffer dams reported under contract No. 8, M. P. & J. T. Davis, bridge east, at $10 per cubic yard, and would say that in accordance with the decision of the Deputy Minister of Justice, this office has instructed District 'B' to correct previous returns and transfer this material to item 8, at schedule price.

I am, sir, your obedient servant,

The Secretary, Transcontinental Ry. GORDON GRANT, *C.E.*

Re Hydraulic and other Rents.

AUDIT OFFICE, OTTAWA, January 31, 1910.

SIR,—Enclosed herewith please find a statement of leases of hydraulic and other rents, which I find have not bee n paid during the current year, and are now past due.

In each case cited the lessees paid rentals during the year 1908-9.

The necessary instructions should be given your officers to collect these amounts and thus avoid the accumulation of arrears.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J, FRASER, *A.G.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, March 2, 1910.

SIR,—Referring to the rentals, amounting to $160, due under the lease No. 14111, held by the Electric Fireproofing Company of Canada, Montreal, on the Lachine canal, as to which you have desired information, I have the honour to say that Mr. F. St. Germain, the agent of the department at Montreal, has advised, under date the 23rd ultimo, that he has seen Mr. C. R. Dobbin, the secretary-treasurer of the company, who states that he will pay $80 on March 15, instant, and the balance as soon as possible, his excuse for the delay being that his company had not been in operation for two and a half years, and are, in consequence, short of funds. The company do not wish to give up the lease, as they expect to start up business again before long. Mr. St. Germain suggests that no action be taken in the matter until after the 15th instant.

I am, sir, your obedient servant,

The Auditor General. L. K. JONES, *Secretary.*

Re Hydraulic Leases: Cornwall Canal.

AUDIT OFFICE, OTTAWA, April 20, 1910.

SIR,—I beg to call your attention to the payments made by the Canadian Coloured Cotton Mills Company on their leases Nos. 11510 and 11511 during the past two fiscal years, viz.:—

1908-9—Lease No. 11510, period not stated..	$1,620
1908-9—Lease No. 11511, period not stated..	2,000
1909-10—Lease No. 11510, 1 year to December 31, 1908..	1,620
1909-10—Lease No. 11511, 1 year to December 31, 1908..	2,000

It will be observed from this that the company have only paid one year's rental in each fiscal year.

According to the information which I have, these rentals are payable in advance in January and July, so that at the present time the company is in arrears to the extent of $5,430.

I should be glad to know what efforts, if any, have been made to collect these rentals to date.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J, FRASER, *A.G.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, May 6, 1910.

SIR,—I have the honour to acknowledge the receipt of your communication of the 20th ultimo, relative to the payments that have been made by the Canadian Coloured Cotton Mills Company under their leases, Nos. 11510 and 11511 on the Cornwall canal, during the last two fiscal years, in which you state that, from the contents of your letter, it will be observed that the company have paid one year's rent in each fiscal year only, and you ask what steps are being taken to collect the rentals to date.

In reply, I have to say that on the 4th instant corrected returns were forwarded to you in the matter, and that the collector of canal revenues has been instructed to collect the arrears of one year due in advance under each of the leases in question.

I am, sir, your obedient servant,

The Auditor General. L. K. JONES, *Secretary.*

Re **Hydraulic and other Rents.**

AUDIT OFFICE, OTTAWA, April 20, 1910.

SIR,—I find that nothing has come to account for hydraulic and other rents from the following individuals and companies during the fiscal year ended March 31 last:—

Murray Canal.—H. E. Goff.

Rideau Canal.—D. Keenan.

Lachine Canal.—Canada Paper Company; Decarie, Fils & Cie; Desrochers, Joseph; Electric Fireproofing Company; Montreal and Cornwall Navigation Company; Richelieu and Ontario Navigation Company; Stenson Reeb Builders' Supply Company; Ward, Hon. J. K.; Wilson, J.

Welland Canal, Port Colborne.—Dunnville, Town of; Eshelman, Henry B.; Militia and Defence Department; Taylor, Beatrice L. Port Dalhousie—Clifton Sand and Gravel Company; Leonard, R. W.

All these paid in the previous year 1908-9, and amounted to something over $2,000.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J, FRASER, *A.G.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, April 28, 1910.

SIR,—I have the honour to acknowledge the receipt of your letter of April 20 instant, containing a list of canal leases on which, you state, no rentals have been paid during the fiscal year ended March 31 last.

In reply, I have to say that the position in respect of each of the leases mentioned by you is as follows:—

Murray Canal—

Lease to H. E. Goff. The superintendent has been instructed to collect the arrears, amounting to $10.

Rideau Canal—

Lease to D. Keenan has been cancelled by an Order in Council, dated November 30, 1908, and superseded by lease No. 17459 to Felix Keenan. There are no arrears of rental.

Lachine Canal—

Lease to the Canada Paper Company. Rental is due in advance from January 1, 1910, at $365 a year.

Lease to Decarie, Fils & Cie, has been cancelled by a departmental letter of November 2, 1908. There are no arrears of rental.

Lease to Joseph Desrochers. Instructions have been given for the collection of the arrears of rental due.

Lease to the Electric Fireproofing Company. This company asked for time to settle, pending the re-opening of their works. They have paid $80 on April 1 instant, leaving a balance still due of $80.

Lease to the Montreal and Cornwall Navigation Company. Instructions have been given for the collection of the arrears of rental due.

Lease to the Richelieu and Ontario Navigation Company has been cancelled by an Order in Council, dated June 2, 1908. There are no arrears of rental due.

Lease to Stenson Reeb Builders' Supply Company has been cancelled, by a notice dated February 8, 1909. There are no arrears of rental due.

Lease to Hon. J. K. Ward. The rental has been paid to May 31, 1910, by J. H. Redfern.

Leases to J. Wilson. This lessee has promised to pay shortly. The arrears amount to $177.60 and $315, respectively.

Welland Canal—

Leases to the Town of Dunnville. The rental on these two leases, $5 and $1, respectively, has been paid on April 14 instant.

Lease to Henry B. Eshelman has been assigned to the Colonial Wood Product Company (assignment No. 17520), who have paid the rental to September 30, 1910.

Lease to the Department of Militia and Defence was surrendered under date June 1, 1909.

Lease to Beatrice L. Taylor. Instructions have been given for the collection of the arrears of rental due.

Lease to the Clifton Sand and Gravel Company is not known by the department.

Lease to R. W. Leonard. Instructions have been given for the collection of the arrears of rental due.

I am, sir, your obedient servant,

The Auditor General. L. K. JONES, *Secretary.*

Re Hydraulic Lease: Lachine Canal.

AUDIT OFFICE, OTTAWA, April 20, 1910.

SIR,—I beg to call your attention to the payments made on lease 14311 on the Lachine canal by the Canada Horse Nail Company during the past two fiscal years, viz.:—

1908-9—Paid 8 months to February 28, 1909. . . . . $1,333 32

1909-10—Paid 1 month to March 1, 1909. . . . . 166 66

The annual rental is $2,000 payable on January 1 and July 1, so that they are now in arrears: one year's rental=$2,000.

Please give this your early attention.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J. FRASER, *A.G.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, May 6, 1910.

SIR,—I have the honour to acknowledge the receipt of your communication of the 20th ultimo, relative to the payments that have been made under lease No. 14311, on the Lachine canal, by the Canada Horse Nail Company during the last two fiscal years, in which you state that it appears that the company are now in arrears under the lease in question.

In reply, I have to say that the lease has been cancelled, and is superseded by another lease, No. 18251, dating from March 1, 1909, in favour of the Montreal Stock Yards, and that, instead of there being any arrears of rent due, there is a refund of $166.66 due to the company in the matter.

I am, sir, your obedient servant,

The Auditor General. L. K. JONES, *Secretary.*

Re **Hydraulic Rent: Lachine Canal.**

AUDIT OFFICE, OTTAWA, May 11, 1910.

SIR,—Let me acknowledge the receipt of your letter of the 6th instant in reply to mine of the 20th ultimo, having reference to the arrears of rental on lease No. 14311, Canada Horse Nail Company, Lachine canal.

You state that this lease has been cancelled and is superseded by No. 18251 in favour of the Montreal Stock Yards Company and that, instead of there being any arrears of rent due there is a refund of the sum of $166.66 due to the company in the matter.

I do not find that the Montreal Stock Yards paid any rental upon the new lease. No. 18251, during the fiscal year just closed.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J. FRASER, *A.G.*

Re **Hydraulic Rents: Williamsburg Canal.**

AUDIT OFFICE, OTTAWA, April 20, 1910.

SIR,—During the fiscal year 1908-9 the village of Iroquois made payments on their leases on the Williamsburg canal as follows:—

Lease No. 7852—1½ years to June 30, 1909.. .. .. $105
Lease No. 14728—2 years to August 31, 1909.. 10

Nothing was collected on these leases during the fiscal year just closed.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J. FRASER, *A.G*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, May 6, 1910.

SIR,—I have the honour to acknowledge the receipt of your communication of the 20th ultimo, relative to the payments that have been made by the corporation of the village of Iroquois under their leases on the Williamsburg canals, in which you state that no rental has been collected under the leases in question during the fiscal year just closed.

In reply, I have to say that the collector of canal revenues at Cardinal has been instructed to collect the arrears of rental due in the matter.

I am, sir, your obedient servant,

The Auditor General. L. K. JONES, *Secretary.*

Re **Intercolonial Railway Arrears: Halifax and South Western Railway.**

AUDIT OFFICE, OTTAWA, February 17, 1910.

SIR,—In the balance sheet of the Intercolonial railway for December 31, 1909, which has just been received, there is entered as due by the Halifax and Southwestern railway, $113,822.04.

This amount represents charges for proportion of joint stations at Halifax and Richmond, and car repairs, car service, &c. The account commenced on Janaury 16, 1905, is increasing all the time and nothing being paid. The amount due March 31, 1908, was $51,340.99; March 31, 1909, $90,063.78.

Your predecessor, in his letter dated September 16, 1909, stated 'that a good deal of effort has been expended in an endeavour to collect this amount peaceably,' seemingly without any result.

It is time that some drastic steps should be taken.

I am sending a copy of the correspondence on this matter to the Treasury Board.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J. FRASER, *A.G.*

DEPT. OF RAILWAYS AND CANALS, OTTAWA, February 22, 1910.

DEAR SIR,—I am in receipt of your communication of the 17th instant, with reference to the amount due by the Halifax and South Western railway to the Intercolonial railway.

Some time ago, the Minister took this matter up personally with the company, and on representations from them that certain negotiations were pending but which had not at that time reached a final settlement, he agreed that the settlement of the amount owing as of September 30, 1909, should be allowed to stand until a later date, but from that time on the accounts were to be rendered monthly to them, and a prompt settlement made.

The Intercolonial railway, in accordance with this arrangement, have rendered the accounts for October, November and December, and I am advised that the Halifax and South Western railway have made a payment on account.

I am to-day writing the Halifax and South Western railway that unless the arrangement with the Minister is strictly adhered to, the whole amount due by their company will be placed in the hands of the Justice Department for collection.

In forwarding a copy of the correspondence in this matter to Treasury Board kindly include copy of this letter.

I am, sir, your obedient servant,

The Auditor General. J. H. CAMPBELL, *D.M.*

DEPARTMENT OF FINANCE, OTTAWA, May 13, 1910.

SIR,—Referring to your letters of February 18 and 25, 1910, enclosing for submission to the Treasury Board for such action as they might deem necessary, the correspondence with the officials of the Intercolonial railway and the Deputy Minister of Railways and Canals, in reference to the arrears due by the Halifax and Southwestern railway to the Intercolonial railway, I now have the honour to inform you that the matter was brought before the Board for consideration, and I enclose herewith, for your information, a copy of a minute of the board of April 25, 1910, regarding this subject.

I am, sir, your obedient servant,

The Auditor General. T. C. BOVILLE, *D.M. of Fin. and Secretary of Treasury Board.*

Extract from the Minutes of a meeting of the Honourable the Treasury Board, held at Ottawa on April 25, 1910.

Treasury Board.

The Board had under consideration communications from the Auditor General, dated February 18 and 25, 1910, submititng correspondence with the Intercolonial railway officials and the Deputy Minister of Railways and Canals in reference to arrears due by the Halifax and Southwestern railway to the Intercolonial railway.

The Board recommend that the papers in the case be referred to the Department of Railways and Canals with the suggestion that the matter be placed in the hands of the Department of Justice for collection.

(Sgd.) T. C. BOVILLE, *Secretary.*

Annapolis Royal, Nova Scotia, and London, England.

AUDIT OFFICE, OTTAWA, December 21, 1909.

SIR,—In the contract with the Acadia Steamship Company for steamship service between Annapolis Royal, Nova Scotia, and London or Hull, England, the payment of the subsidy of $1,000 for each voyage is made dependent on evidence being submitted to the department, sufficient to show that the 'fruit or other perishable produce shipped on such voyage was carried and delivered at the port of destination in good and satisfactory condition in so far as proper storage and ventilation thereof were concerned.' Have you received the necessary evidence in the way of certificate or otherwise that the fruit carried on the voyages for which you ask payment in your application of the 16th instant reached its destination in good and satisfactory condition?

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

TRADE AND COMMERCE DEPT., OTTAWA, December 23, 1909.

SIR,—In reply to your letter of December 21, I beg to send you herewith evidence submitted by the Acadia Steamship Company showing that the fruit and other perishable produce carried on the above service was delivered at port of destination in good and satisfactory condition in so far as proper storage and ventilation thereof were concerned.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

AUDIT OFFICE, OTTAWA, December 28, 1909.

SIR,—I beg to acknowledge the receipt of your letter of the 23rd instant inclosing temperature charts of the steamers *Atlantis* and *Kathinka* which performed the voyages between Annapolis, Nova Scotia, and London, England, during the apple season, 1909, the subsidy for which you have asked payment in your application of 16th instant.

Were the fruit cargoes of these steamers examined in the interests of the department at the port of destination, by any person in a position to certify that the fruit was in good condition at the end of the voyage.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

TRADE AND COMMERCE DEPT., OTTAWA, December 29, 1909.

SIR,—Referring to your letter of December 28, I beg to state that the fruit cargoes on the steamers referred to were examined at the port of destination, and this department was advised that the receivers in Hull had wired the company in Annapolis that the 'Cargoes *Atlantis, Kathinka,* with regard to proper stowage, ventilation, delivered in good condition.'

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

Canada and Great Britain, Allan Contract.

AUDIT OFFICE, OTTAWA, March 7, 1910.

SIR,—I have the honour to acknowledge the receipt of your application of the 3rd instant for a cheque of $123.29, being the amount of a claim made by Messrs. H. & A. Allan for payment of a deduction made on their subsidy for steamship service between Canada and Great Britain during the December quarter, 1909.

This deduction was made by the department for the reason that the rate of speed called for by the contract was not maintained on certain voyages, the rate being calculated upon the mileage stipulated in the contract.

The amount asked for in your application has been determined by the minister allowing the actual mileage of the voyages in question which were greater than the contract mileage.

It seems to me that a deviation of this nature from the provisions of such an important contract as the one concerned should be authorized by the Governor in Council.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

TRADE AND COMMERCE DEPT., OTTAWA, March 8, 1910.

SIR,—I beg to acknowledge receipt of your letter of March 7, and in reply beg to state that the minister gave the ruling in connection with the subsidy payable to Messrs. H. & A. Allan under clauses 31 and 32 of the contract, which read as follows:—

'31. The minister may authorize any change or changes in the terms of this contract as may not be inconsistent with the vote providing for the payment of the subsidy.

'32. The minister shall at all times be the judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive.'

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

AUDIT OFFICE, OTTAWA, March 10, 1910.

SIR,—I have the honour to acknowledge the receipt of your letter of the 8th instant calling my attention to clauses 31 and 32 of the contract with Messrs. H. & A. Allan for steamship service between Canada and Great Britain, and pointing out that, under these clauses, the Minister of Trade and Commerce has power of his own motion to make any changes he pleases in the contract.

Admitting that your interpretation is correct, I beg to bring to your notice an order in council of January 14, 1907, authorizing a change in the Allan contract respecting the mileage between Canada and Great Britain upon which the rate of speed should be calculated owing to the discontinuance of Moville as a port of call.

It seemed to me if it were necessary to go to council in that instance it would be equally necessary to obtain the authority of council in the present case.

However, as the contract appears to bear out your interpretation, I have passed your application for the amount asked for. I have deemed it only proper that I should call your attention to the absence of the authority of the Governor in Council in view of the fact that such authority was obained under somewhat similar circumstances on a previous occasion.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

TRADE AND COMMERCE DEPT., OTTAWA, March 11, 1910.

SIR,—I am in receipt of your letter of March 10, of which I have taken careful note. I beg to state, however, that the order in council referred to was passed by reason of the fact that the minister did not wish of his own volition to make the change referred to in view of the fact that it involved the dropping of the call at Moville. There may also be other occasions upon which the minister may not wish to give a decision without submitting the matter for the consideration of council.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M*

Canada and France.

AUDIT OFFICE, OTTAWA, May 3, 1910.

SIR,—With reference to your application of the 29th ult. for a cheque in favour of H. & A. Allan, for $27,777.75, being a subsidy claimed by them for five round trips of their steamships between Canada and France, performed during the months of February and March last, I beg to point out that the Messrs. Allan have already been paid for steamship service on this route, $119,444.33, which amount has been charged to the past fiscal year and covers twenty-one and one-half round trips, commencing on April 17, 1909.

Under the contract entered into on April 28, 1908, which expired on the opening of navigation 1909, but was renewed by order in council, for one year, the total payment for this service in any one year is limited to $133,333.33 for twenty-four round trips; but if the payment asked in your present application is made, the total for the year ending March 31, 1910, will be $147,222.08, covering twenty-six and one-half round trips.

It seems to me that under the contract of 1908 and the order in council, on the authority of which it was renewed for a further period of one year, not more than $13,889 may be paid for the steamship service performed during the year ended March 31, 1910.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

TRADE AND COMMERCE DEPT., OTTAWA, May 6, 1910.

SIR,—Referring to your letter of May 3, I beg to state that Messrs. H. & A. Allan claim that they had an understanding with the minister some few months ago that in order to arrange an alternate sailing with the London steamers of the C.P.R., 26½ trips would be necessary. This, the Messrs. Allan state, the minister agreed to; and while the latter has no recollection of the conversation, yet in view of the fact that there was an appropriation by statute of $200,000 and the question of a more frequent service was under discussion, a misunderstanding has evidently arisen. As the voyages have been performed, however, the minister will recommend to council that the additional trips be paid. Upon receipt of the order in council I shall again make application for the balance due the Messrs. Allan.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

TRADE AND COMMERCE DEPT., OTTAWA, May 30, 1910.

SIR,—I beg to inclose you herewith copy of an order in council passed on the 25th instant, authorizing payment to Messrs. H. & A. Allan of the sum of $13,888.75 for two and one-half trips performed during 1909-10 in excess of the 24 round trips authorized by the contract; and would request the early issue of a cheque in favour of the contractors for $27,777.75 for services on the above route to March 31 last, as per requisition of April 29 last.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

St. John, Halifax, and London, England, Furness, Withy & Company's Contract.

AUDIT OFFICE, OTTAWA, December 21, 1909.

SIR,—With reference to your application of the 20th instant for a cheque of $12,500 in favour of Furness, Withy and Company, being subsidy claimed under their contract dated February 26, 1909, for steamship service between St. John, Halifax and London, for six months ended September 30, 1909, I beg to call your attention to the apparent irregularity of a few of the sailings.

Under their contract the company are obliged to provide sailings from the terminal ports: St. John, N.B., and London, England, at intervals of 'not over fifteen

days.' According to the list of sailings sent me in support of your application, this provision of the contract has not been strictly adhered to in all cases. The company are also obliged to forward to the department time tables showing dates of proposed sailings which, on being approved by the minister, shall be duly advertised. Has this provision been complied with?

Have you received a certificate that the machinery necessary for proper ventilation was in working order on board the different ships, and that the section of the contract dealing with this matter was fully complied with?

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

TRADE AND COMMERCE DEPT., OTTAWA, December 27, 1909.

SIR,—In reply to yours of the 21st instant respecting services on the above route for the six months ended September 30 last, I beg to send you herewith copy of a letter from Furness, Withy and Company in explanation of the points raised.

As the company supplied during this period a more frequent service from Canada than called for by the contract, the slight irregularities in dates of sailing is overcome, and as no complaints have reached us with respect to improper ventilating machinery on board the steamers, this department considers the service efficiently rendered and the subsidy claimed duly earned.

I am, sir, your obedient servant,

The Auditor General. F. C. T O'HARA, *D.M.*

Appropriation for Grain Inspection.

TRADE AND COMMERCE DEPT., OTTAWA, February 17, 1910.

SIR,—I beg to inform you that our vote for the current year, 1909-10, on account of Inspection and Sale and Manitoba Grain Acts, is now exhausted. In the past you have always drawn our attention to the fact that we had incurred bank interest which was illegal. We have not sufficient funds on hand at present to pay salaries or expenses which are absolutely necessary for the months of February and March. We have put forward a supplementary vote, but of course it is not down yet and therefore not available. I am merely writing you to ask you to suggest—if you can— what we are to do. We anticipated that this would not have been necessary this year, and it would not have been necessary were our supplementary vote available. We cannot hold up the grain trade.

Our chief inspector is in town at present, and he states that he can make the same arrangements as in previous years with the bank in Winnipeg; but he has placed the matter before me before taking any further action.

While I am on the subject, I may say we are in identically the same position with respect to our Trade Commissioner Service. We would not have been short had our supplementary vote been available, and new appointments were made to the service expecting that those estimates would have been available before this. Not only is it inconvenient, but the credit of Canada suffers when a trade commissioner has to admit that he cannot pay his rent.

The department cannot be blamed for not estimating its liabilities, in view of the fact that the transportation of grain is always an uncertain quantity, and last year

the tremendous crop added largely to the costs; and as far as the Trade Commissioner Service is concerned, trade conditions made it imperative that the government should make additional appointments at various times, and it was anticipated that the supplementary estimates would have been avilable to meet the extra demands.

Can you suggest any way out of the difficulty in so far as the Trade Commissioner Service is concerned as well?

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M.*

AUDIT OFFICE, OTTAWA, February 21, 1910.

SIR,—I have to acknowledge receipt of your letter of 17th instant in reference to exhausted appropriations, and asking me if I can suggest any way out of the difficulty in so far as the Trade Commissioner Service is concerned.

In reply I beg to say that I know of no legal way in which the appropriations can be exceeded. Parliament being in session, the way is open to get supplementary estimates passed immediately if the trade conditions make it imperative that the government must spend more money than has already been provided by parliament. It is clearly irregular to obtain money from the banks, either with or without interest, in excess of appropriations. I understand that the banks have been instructed not to make any financial arrangements other than through the Department of Finance, and I am aware that an order in council has been passed and transmitted to all the departments informing them that no new or additional expenditure must be incurred which has not been provided for in the estimates without first having obtained the consent of council. Under these circumstances I do not see any course open for you but to obtain a supplementary vote.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*
